advanced air filtration.

ENGINEERED
FOR
BETTER
AIR.

QUALITY AIR = QUALITY LIVING.

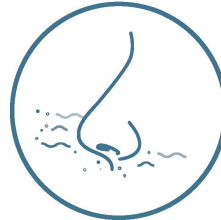

Indoor air can be up to five times more polluted than outside air* – trust Atmosphere Sky™ and Atmosphere Mini™ Air Treatment Systems to keep your home air clean.

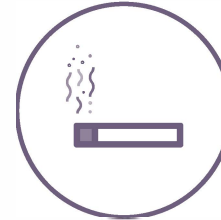

DUST

DANDER

ODORS

SMOKE

THE ATMOSPHERE SKY™ AIR TREATMENT SYSTEM:

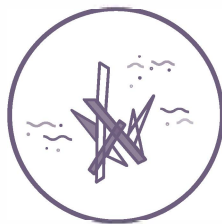

- Effectively removes over 300 airborne contaminants from air passing through the filter.†
- Has 99.99% filtration – that's better than just HEPA.**
- Filters particles as small as .0024 microns, which is 30,000 x SMALLER than a human hair.

GUESS WHAT?

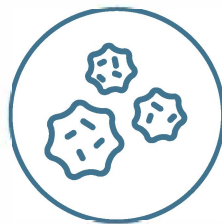

30% to 40% of Americans have allergies, and 15% are allergic to the pets in their homes.

THREE IS BETTER THAN ONE.

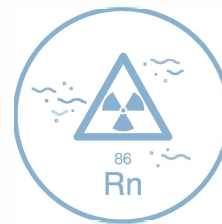

Both of our Atmosphere™ units use three-stage filtration systems to effectively target contaminants and eliminate them from the air passing through the unit.

1. Pre-Filter
Captures large, airborne fibers and hair.

2. HEPA Filter
Removes small particles such as allergens, bacteria, mold, viruses, fungi and asbestos.

3. Carbon Filter
Reduces formaldehyde, dioxin and ozone, as well as odors from smoking, cooking and pets.

*The United States Environmental Protection Agency (EPA) states that indoor air can be up to five times more polluted than outside air, July 2018.

†The Atmosphere Sky™ Air Treatment System is a room air purifier designed for use in rooms up to 465 sq. ft. in size. It is not designed to filter the air throughout an entire home. Particulate removal performance is based on testing conducted in controlled environments.

**HEPA standards are 99.7%.

CONVENIENT + CONNECTED

Monitor air quality levels in your room and track changes over time right from your phone.

ATMOSPHERE™ CONNECT APP

This custom-designed app for both Atmosphere™ units makes it easy to monitor and manage the air inside your room even when you're away.

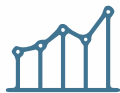

ENHANCED CONNECTIVITY

Voice activated

Works seamlessly with Amazon® Alexa† for easy voice commands.

Remote control

Turn it on or off, change the fan speed or mode, and check for room air quality.

AIR QUALITY MONITORING

Indoor air quality

Track the air quality in your room, 24 hours a day with a 7-day history.

Outdoor air quality

Check the outdoor air quality in your current location.

UNIT AND FILTER MANAGEMENT

Register your unit and filters

Purchase a replacement filter to take advantage of our renewable warranty – it only takes a few minutes to register.

Filter life and purchasing

Know when to replace your filter and buy replacement filters right in the app.

FRESH AIR AT YOUR FINGERTIPS.

Manage, monitor and track your room air quality wherever you are.

BETTER TOGETHER.

With the Atmosphere™ Connect app and two unit sizes, you can enjoy a fully connected experience while treating multiple rooms in your home.
